ALTERATIONS – SMALL PROJECTS PERMIT

Application Requirements

Alterations (renovations) that meet the scope of the *International Existing Building Code* and that will be made to a legally occupied building should follow this simplified application process:

1. **Submit one (1) copy of the APPLICATION FOR SMALL PROJECTS PERMIT.**
2. **Submit payment of the amount calculated below** via check or money order made payable to Light-Heigel & Associates. Be sure to accurately detail all of the work to be done under the building permit.

If you are seeking a permit for a roof replacement and the work will include replacement of some or all of the sheathing, the type and thickness of the existing and replacement material must be specified in your description.

After reviewing this information, we will either issue a UCC Building Permit or contact you regarding work that appears to fall outside the scope of the International Existing Building Code. If a permit is issued, we will also inform you of inspections that must be passed, before a certificate of occupancy can be issued.

Applicant's Certification:
As the owner or the authorized agent of the project for which this application is filed, I certify that:

1. The estimated construction cost and all other information provided as part of this application for a building permit is correct.
2. The building or structure described in this application will not be occupied until all known code violations are corrected and a Certificate of Occupancy has been received.
3. This project will be constructed in accordance with the approved drawings and specifications (including any required non-design changes) and the Uniform Construction Code standards as specified in 34 PA Code Chapters 401-405.
4. Any changes to the approved documents will be filed with the municipal UCC Building Code Official.
5. If the licensed architect or engineer in responsible charge of this construction should change, written notice of the change will be provided to the municipal UCC Building Code Official.
6. When required, up to 20% of the total cost of any work performed on an area of primary function in an existing building will be expended to provide an accessible route to the area of primary function.
7. No error or omission in either the drawings and specifications or application, whether approved or not, shall permit or relieve me from constructing the work in any manner other than provided for in 34 PA Code Chapters 401-405.
